Dear Dr. Humor,

What an absolute hit you were! Appealing to all K-12 teachers is a formidable task. As one teacher noted, "Dr. Humor was the best keynoter we ever had." Here are some of the evaluation comments: --nice to start on a high note, great, terrific, Super!, uplifting, Bring Dr. Humor back!, great pep-talk to begin the year, great motivator, interesting, awesome, inspirational and entertaining---

As you may surmise from the above comments, you definitely made me look good with my nine superintendents. Thank you, Stu, for sharing your insights, humor, and talents. Underneath all the humor was a valuable message we received loud and clear.

For any future references, please call me or any of the superintendents of our school districts. Without a doubt you added "Pizzazz" to our year! THANKS.

Sincerely,

Diane J. Thaler
